

BIO THERM ELIMINATOR® WASTE DIGESTER

BIO THERM IS A REVOLUTIONARY RV WASTE DIGESTER DESIGNED TO EFFECTIVELY BREAK DOWN VARIOUS WASTE FORMS, ENSURING A CLEAN AND ODOR-FREE ENVIRONMENT.

BioTherm Eliminator® is suitable for all RV wastewater treatment systems, including gray water. For effective biodegradation, always ensure some form of agitation—either by pumping, shaking, or bubbling.

- **Formaldehyde-Free:** Ensures the safety of the environment.
- **Efficient Biodegradation:** Transforms waste into Water, CO₂, and a minimal amount of Biomass (protein).
- **Removes Foul Odors:** Actively eliminates sewage smells during biodegradation.
- **Multi-Functional:** Also targets Phosphorus, Sulphates, and Nitrates during the biodegradation process.
- **Struvite Elimination:** Dispels Struvite (kidney stones) in sewage by breaking down Calcium, Magnesium, and Uric Acid deposits.
- **Registered with the US Fish and Wildlife** since 1984, testifying its longstanding reliability.

Mix Ratio: 1:1000 (1ml of BioTherm to 1L of liquid waste).

SAFETY FEATURES

- BioTherm Eliminator® is characterized by its All-SAFE practice, neutralizing odors in air-exposed environments.
- No negative impact on humans, animals, or the environment. The formulation is non-toxic and biodegradable.
- Certified as "Absolutely Non-Toxic to Wastewater Treatment Plant bacteria."

SUPERIOR PERFORMANCE IN THE FOLLOWING APPLICATIONS

- RV sewage systems
- Manure
- Cellulose waste
- Lake/pond algae
