Octane Booster for all gasoline engines

- Fuel savings up to 20%
- Octane booster 7 to 9 points
- Reduced tail pipe emissions
- Improved engine horsepower
- Cleans entire fuel system
- Lubricates complete fuel system
- Operates from –60°C to 60°C

Octane Booster = PERFORMANCE

Mix ratio: 500 : 1
2ml / Litre (1/4 oz. / gal)

Gasoline Octane Booster

Reduces Greenhouse Gas Emissions
**Octane Booster**

Contains high performance octane boosters and combustion enhancers:

- Providing exceptional fuel savings.
- Improving engine response time.
- Improving octane power ratings.
- Optimizing injector spray patterns.
- Improving fuel burn in combustion.
- Providing easier engine starts.
- Significantly reducing emissions, smoke and engine fouling.

**Gasoline Octane Booster**

Cleans ‘as new’:

- Injectors
- Valves, Ports
- Fuel pumps
- Combustion chambers
- Removes moisture

**Safe to use:**

- All injectors, pumps, and gasoline fuel systems.
- Lubrication protects and helps prevent pump and injector failure.

**Octane Booster**

Provides clean-burn to your engine

Result: reduced tail pipe emissions.

Good for all grades of gasoline.

Stabilizes gasoline for 2 years.

Prevents fuel degradation.

---

**Hazardous Material Identification System**
