

Winter Lube Plus for all diesels

- Operates in temperatures from **-60°C** to **60°C** (**-76°F** to **140°F**)
- Instantly liquefies **-76°F** (**-60°C**) gelled diesel fuel to full operation.
- Cost effective fuel conditioner:
1 Litre treats 1000 L of diesel fuel
- Eliminates injector and fuel system fouling
- Lubes and protects entire fuel system
- Prevents cold weather filter plugging
- Decreases tailpipe emissions

- Mix ratio: 1000 : 1
1 ml / Litre (1 qt / 250 gal)

Winter Lube Plus

Improves:

- **Fuel Economy**
- **Cold Driving**

Winter Lube Plus

with Moisture Control Technology

Maintains trouble free winter driving

- Improving engine response time.
- Optimizing injector spray patterns.
- Improving fuel burn in combustion.
- Extends fuel pump and injector life.
- Significantly reducing emissions, smoke and engine fouling.

WINTER LUBE PLUS Diesel Fuel Conditioner

- **Cleans 'as new':**
- Injectors
- Valves, Ports
- Fuel pumps
- Combustion chambers

Removes moisture

Removes fuel tank fouls

Winter Lube Plus

Provides **clean-burn** to your engine resulting in reduced stack emissions.

Stabilizes/preserves all diesel fuels,

Lubricates entire diesel fuel system including Ultra-low Sulfur diesel.

Eliminates water and icing in entire diesel fuel system.
