

# LEADING STEEL GIANT IN CANADA SINGLED OUT GREENCUT® CUTTING FLUID FOR EXCEPTIONAL PERFORMANCE.

**GREENCUT® ISN'T JUST A PRODUCT; IT'S A GAME-CHANGER, ENSURING EFFICIENCY, SAFETY, AND COST SAVINGS.**

## **About Varsteel Ltd.:**

A beacon in the steel industry, Varsteel Ltd. proudly serves both Canada and the United States, specializing in steel, rebar, pipe, piling, and structural steel.

## **The Challenge:**

Finding a lubricant that not only prolongs the life of their band saw blades for steel cutting but also streamlines maintenance and reduces operational costs.

## **The Experiment:**

Four distinct lubricants were meticulously tested on Varsteel's band saws to ascertain their efficiency and effectiveness.

## **The Outcome with GreenCut®:**

GreenCut Cutting Fluid from LubeCorp Manufacturing emerged as the undisputed champion. Not only did it significantly extend blade life, but it also slashed maintenance time by an impressive 30%. The financial upside? An estimated **annual savings of a whopping \$50,000.**

## **Beyond the Savings – Additional Advantages:**

1. **Customer Satisfaction Skyrocketed:** With GreenCut, steel products from Varsteel were cleaner, enabling customers to directly paint or powder-coat post-purchase without any additional cleaning.
2. **Workers' Approval:** For the saw operators, GreenCut was more than just a functional lubricant. Its health-safe properties were a boon, eliminating respiratory and skin issues. Plus, its non-slippery nature ensured a safer work environment. Maintenance was a breeze – a simple pH strip test at the start of each shift was all it took.

## **THE RESULTS**

- 140% Increase in Saw Blade Life
- Annual Savings Estimate \$50,000\*
- Reduced downtime by 30%
- Increased Customer Satisfaction
- Safe for workers
- Easy maintenance
