

GREENCUT® CUTTING & MISTING FLUID

GREENCUT PROVIDES EXCEPTIONAL GREENCUT = SAFE LUBRICATION—BURNISHING—COOLING OF THE WORK PIECE

DISCOVER THE CUTTING-EDGE ADVANTAGES OF GREENCUT®

- Extends tool life by 40%
- Provides improved accuracy
- Superb surface finish
- Increased production speeds
- 100% effective regardless of the tool speed or feed
- Friction plane heat is radically reduced by the extraordinary GreenCut lubrication assets

GreenCut does this by having full access to the seizure zone on the tool rake-face where all the cutting action takes place, **preventing metal-to-metal contact**

- **Eliminates sump odors permanently:** immediate biodegradation of up to 5% of oil wastes means no stench and extended service life.
- No sump clean-outs for at least one year with proper maintenance and pump circulation of the coolant.
- Easy on the hands and helps heal lacerations & dermatitis. Vapors won't cause asthma or breathing problems.

SAFETY FEATURES

- Human Safe
- Fireproof
- Smoke-proof
- Non-toxic
- Spills are safe to walk on “no-slip”
- Vapors won't cause asthma or breathing problems
- Easy on the hands and helps heal lacerations and dermatitis

SUPERIOR PERFORMANCE IN THE FOLLOWING APPLICATIONS

- Machining
- Cutting
- Grinding
- Drilling
- Tapping
- Excellent for liquid CNC controlled Plasma Arc Cutting Tables

COMPATIBLE WITH ALL METALS: CARBON STEEL, STAINLESS STEEL, BRASS, INCONEL, TITANIUM, AND ALUMINUM
